

Subject: From Allied Committee of South East Asian information on China intervention to American voters

The following information is shared with US Government for the purpose of corroborating other intelligence received on the CCP's interference with US National Elections. Please advise us if you have need of additional information on this subject matter, or if there are any points of clarification required.

1. To affect voting behaviors and change its course of American voting decisions cannot be done by technical experts' support, but mostly and mainly by influencing the information setting within America environment.
2. China, PRC or an third-party can never affect the American election with any guaranteed expected result. However, PRC may still damage American election by mass media outlets to effectively persuade and strongly agitate voting audiences thru its massive grey campaigns of semi-fake news. Semi fake news, utilized by the CCP's 2nd Bureau, means half fake-half true mixed up news to make them more believable and accountable. In reality, the whole American election system may have its result depending on only 3 to 5 key swing states. These key swing states are the primary targets of PRC.
3. From our SEA info center, especially from Singapore and Vietnam joint resources, we have certain information to allow us to believe that:
 - A. China PRC will utilize its 700 to 800 trained professional experts in the PLA belonging to the Second Bureau in charge of espionage counter- espionage and security intel & disinformation and languages management. These have been segregated to operate at stations in Shanghai and Shenzhen.
 - B. These experts in the Second Bureau possess at least 2000 servers, and 700 to 800 professional agents working full time for their propaganda agenda on key events.
 - C. One of their agenda items is the American election event which they have been focusing on and will concentrate on a few days before Election day, November 3.
 - D. Remember that Second Bureau of PLA is direct controlled by Department 3, which has been commissioned by PLA to counter USA's NSA using its expertise on Disinformation and Foreign Languages department.
4. Their techniques are quite simple and traditional.
 - A. Provoking, providing, propagating and then releasing many specific fake messages, news, disinformation en mass to encourage Republican voters staying in home on Election day.

- B. Accomplish this by advising them with semi-fake information like:
- *Corona virus just spreading out again on Nov 3
 - *Shooting accidents, mass murders taking place, bomb threats
 - *Broken ballot machines
 - *Trump death by assassination
 - *Trump top members quitting to change sides due to Trump broken promises
- C. The intent is to magnify the Fear Factor to confuse the majority of older voters who are inclined to support Trump. If these voters stay safely at home, then it is feasible to disable them participating in voting. This can generate negative domino effect on other areas quickly within 1 to 2 days ahead of election day. This will have an irreversible effect within its limited timeframe.

5. Thus, the Second Bureau also commands its members' efforts to attempt mostly on paralyzing Trump campaign websites and deactivate it system on-line within 2 to 3 days in advance of election. This is for the purpose of causing maximum unpredictable damage. These above tactics are being well prepared to activate on its calculated timing set to be "not too early nor too late".

Note: Second Bureau, one of a dozen bureaus of PLA with its 150,000 members with close to 2000 servers used by 25 agencies of this bureau. 700 to 800 members of these teams were specifically trained in expertise to master technical disinformation and software and language manipulation.

To execute the PRC intervention and injection of influences on Trump's campaign on final days:

The Second Bureau has chosen its schedule to set up critical plan to deactivate and break down Trump's campaign in its final stage 2 to 3 days ahead of Election day, Nov 3. It will ensure the whole digital and website system of Trump's campaign is paralyzed, and that voters are receiving only disinformation that discourage Trump voters to not participate on voting day.

To further panic and additionally confuse these voters, the Second Bureau of PLA has been well preparing to ensure the whole world is captivated by all international headline news with only negative effects by made-up fake election result polls in advance which will be doctored up with predictions on Trump loss on election day.

The international news of the poll prediction on Trump's lost election then will be out to international communities, public, voters, different mass media outlets, later, will be aggressively published in repeated simultaneous sequences by credible news agencies:

New York Times, Washington post, WALL Street journal, UK telegraph, CNN, BBC, RFI, and finally China Daily.

More than 45 other major news agencies, TV and radio stations will participate in coordination

en mass to recap the fake loss election result of Trump. Most of these major news agencies supporting Democratic party are the same left wing of CCP grey propaganda to promote all various public violent demands from BLM with Antifa to downgrade Republican party policy for past few months.

Remember, these action schemes may be taking place by the third week of Oct and vigorously bombarding public media with CCP's grand scheme 2 to 3 days before Nov 3 2020. This will leave no more time for Trump counter-action.

So, from beginning stage. PRC borrowed the banner of Democratic party joined secretly together to generate Semi Fake news then step by step, from Semi fake news. They will make these more believable to public and become deep fake news which is very difficult or even impossible for public population able distinguish from deep fake news to real news. Once, deep fake news to become real news. Then PRC can stretch the real news further to become reality that will and may dictate the public acceptance for this reality before the dawn of election day.

Imagine that When and If Trump campaign paralyzed by Second bureau and unable to respond to public anger and panic en massthen this is not very far from dooms day to our history and our survival of social justice.
